Important notices

- **Educational purpose.** The content explains general business, financial, legal and commercial concepts. It is not legal, tax, accounting, investment or regulatory advice for any specific situation.
- **Fictional companies and transactions.** All companies, people, banks, documents, deals and figures used in examples, case studies and document templates are fictional training simulations unless an institution, standard or law is explicitly identified as real. Simulated transactions are never real completed transactions.
- **Document templates.** Sample documents (letters of credit, bills of lading, contracts, certificates, term sheets, etc.) are teaching templates. They are not valid instruments and must not be presented as documents issued by any bank, carrier, government or other institution.
- **Standards and rules change.** References to IFRS, US GAAP, Incoterms® 2020, UCP 600, URC 522, URDG 758, Basel standards and other frameworks reflect the author’s understanding as of October 2026. Always verify current versions with the official issuer before relying on them. Laws differ by jurisdiction; consult a qualified local professional for actual transactions.
- **Market figures.** Prices, rates, margins and costs in examples are illustrative assumptions chosen to teach the mechanics, not market data or forecasts.

Incoterms® is a registered trademark of the International Chamber of Commerce. This work is not affiliated with or endorsed by the ICC, the IFRS Foundation, FASB, SWIFT, the Basel Committee or any other organisation mentioned.
